

# MEREDITH BLIS

Award-winning vocalist, songwriter, pianist and composer, **Meredith Blis** embraces varied influences, from Bach to jazz to modern electronica. Her siren-like vocals evoke both an intimacy and the emotional intensity of the blues. The lush musical production draws comparisons to artists such as Ellie Goulding and Annie Lennox.

The Meredith Blis Electric is a live electronic experience that pairs her Lillith Fair-esque songs with electronica, looping and soundscapes via Ableton Live and multiple midi controllers like the Naonext Crystal Ball.
